

	COVID-19 PBMCs	Abatacept in RA
Fc receptor signaling pathway	*****	*****
production of molecular mediator of immune response	*****	*****
antigen processing and presentation	*****	*****
acute inflammatory response	*****	*****
regulation of B cell activation	*****	*****
mitotic sister chromatid segregation	*****	*****
Fc-gamma receptor signaling pathway	*****	*****
humoral immune response mediated by circulating immunoglobulin	*****	*****
membrane invagination	*****	*****
SRP-dependent cotranslational protein targeting to membrane	*****	*****
mitotic nuclear division	*****	*****
cell recognition	*****	*****
negative regulation of cell cycle phase transition	*****	*****
microtubule cytoskeleton organization involved in mitosis	*****	*****
chromosome separation	*****	*****
rRNA processing	*****	*****
viral transcription	*****	*****
nuclear-transcribed mRNA catabolic process, nonsense-mediated decay	*****	*****
spindle assembly	*****	*****
macroautophagy	*****	*****
